

Every screen, explained.

The complete Rockwell Metals platform — storefront, KYC-tiered onboarding, price-locked checkout, allocated vault custody, drops & live auctions, and the full staff operations console. One page per screen: what it looks like, what it's for, and the link to open it.

47 screens

customer + admin
realms

localhost:3010

runs on your
machine

data/db.json

local store • stands in for
Supabase

RM-STD/001

set to the interface
standard

Quick start.

1 • Run it

In the project folder: `npm run build` once, then `npm next start -p 3010` (or just `npm run dev`). Open `http://localhost:3010`. Port 3000 is left free for your other projects.

2 • Demo as a customer (for the owner demo)

Open `http://localhost:3010/auth/demo?as=adrian@rockwell.demo` — one click signs you in as **Adrian Reyes**, a lived-in account: 11 vaulted coins, orders in every stage, a shipment mid-transit, sell-back history, an active VaultPlan, and Sovereign-tier rewards.

3 • Demo as staff

Go to `/auth/sign-in` and press any role under *staff console* — Super Admin, Ops & Vault, Logistics, Compliance, or Support. Each role sees only its own tools (RBAC).

4 • The full story in 90 seconds

Buy on a product page (120s price lock → checkout) → watch the Vault Passport mint on the success screen → as staff, allocate / pack-scan / dispatch in the admin realm → advance the shipment → everything lands in the audit ledger. Reset anytime: POST `{"action":"resetDemo"}` to `/api/rm`.

CUSTODY

How allocated custody works

Segregated, serial-matched, never lent. Your metal is your metal — audited monthly.

SELL-BACK

Instant sell-back mechanics

90-second bid locks at a 0.5% spread; USDC settles in ~3 minutes, wire same day.

DELIVERY

Armored delivery & signatures

Tamper-evident bags, direct signature with photo ID match, Lloyd's cover to your door.

VERIFY

Verifying a serial

Every passport re-verifies against the ledger — assay record, bay location, chain of custody.

KYC

Tiers & limits

Tier 1 instant under \$10k, Tier 2 to \$100k with ID + liveness, Tier 3 institutional.

TAX

1099-B and Form 8300

Realized ledger exports for Schedule D; >\$10k cash/crypto events auto-file 8300.

spot feed liveXAU 2,387.40▲+0.42%

Customer liquidations at locked bid rates. Approval checks KYC clearance; disbursement executes the payout and reclaims physical stock to treasury.

REQUEST	CUSTOMER	POSITION	LOCKED BID	PAYOUT	KYC	STATUS
RM-SB-0088 7d ago	Adrian Reyes	American Gold Eagle · 1 oz ×1 RM-AU-EGL-3299	\$2,531.00 spread 0.5%	USDC 0x8ff2...41ce	CLEARED	DISBURSED
RM-SB-0091 3h ago	Mei Lin Tan	Gold Britannia · 1 oz ×1 RM-AU-BRT-1150	\$2,519.00 spread 0.5%	WIRE	CLEARED	REQUESTED ApproveReject

What it's for. Customer liquidation queue: locked bids, KYC clearance check, approve/reject, then 1-click crypto payout or Fedwire export.

Adrian Reyes21h ago

Can I get a tighter delivery window for the proof Eagle in transit?
I need to be home to sign.

Dev Patel · staff16h ago

Checking with Brinks — current ETA is tomorrow 10:00–14:00. I'll confirm the 2-hour window as soon as the courier commits.
