

Physical Bullion, Traded Like Digital

A complete Day Mode visual walkthrough of the customer onboarding, trading, allocated custody, and staff operations lifecycle across all 38 verified screens.

1. Customer User Journey

`customer@rockwell.demo`

Experience full customer trading: market catalog, 120s price lock checkout, crypto & wire settlement, live Vault Passport minting, allocated holding management, instant sell-back liquidity, and armored withdrawal tracking.

2. Staff Operations Command

`admin@rockwell.demo`

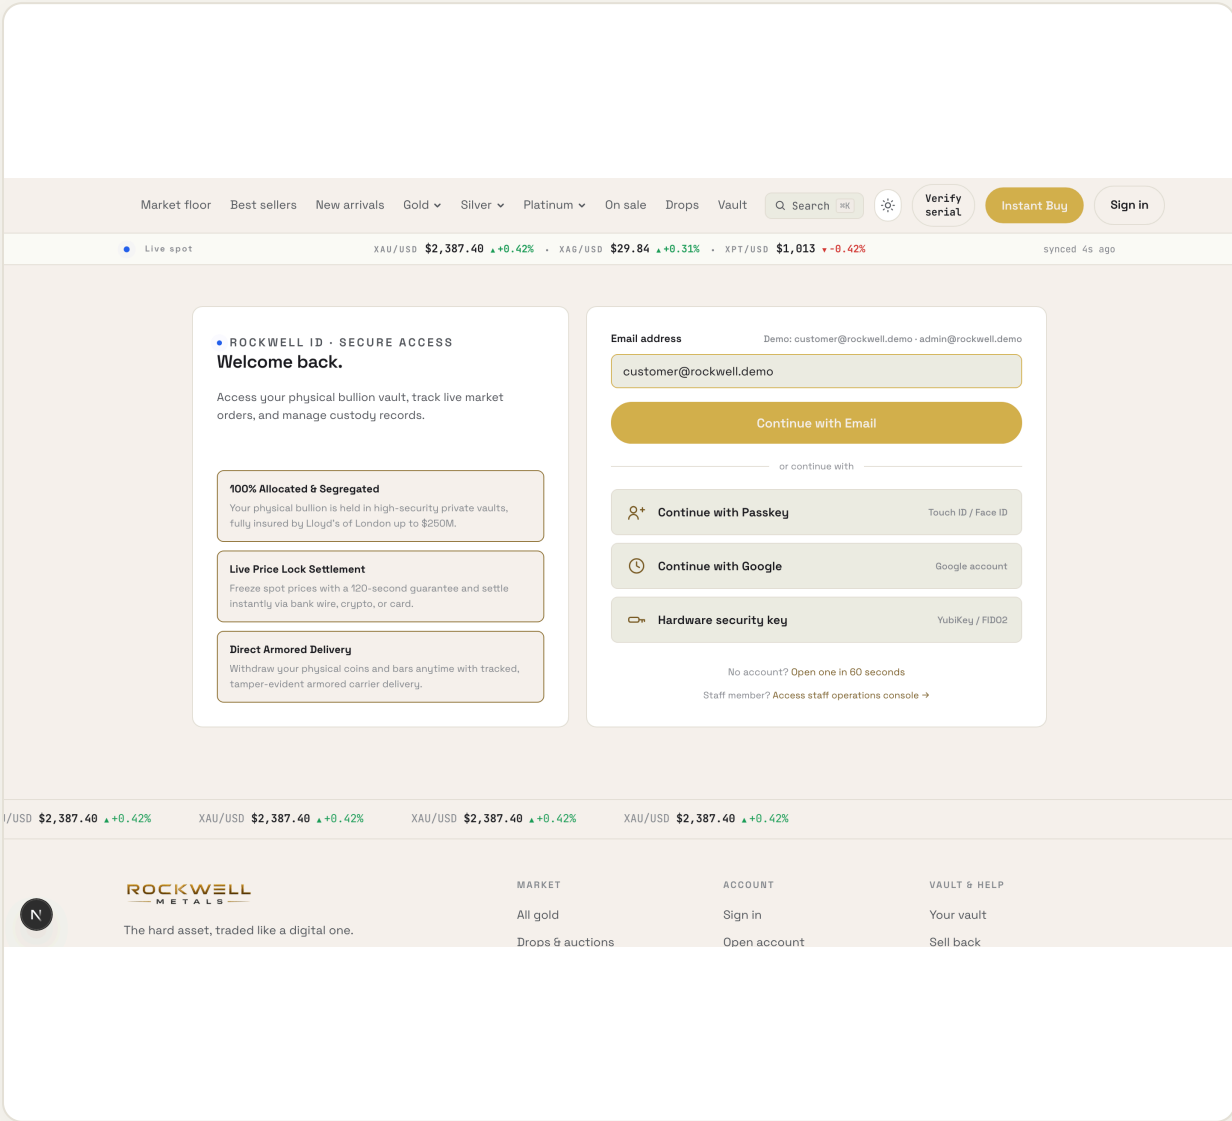

Experience the operational backend: OMS order processing, mint intake with XRF spectrometer purity validation, serial allocation, sell-back liquidation payout desk, Customer 360 CRM, and immutable cryptographic audit logs.

ROCKWELL METALS ARCHITECTURE

Part 1: Customer Lifecycle & Trading Journey

End-to-end verified Day Mode workflow with live market marks, allocated physical custody, and atomic state machine transitions.

1. Access & Authentication

FUNCTIONAL OVERVIEW

Streamlined sign-in with email, passkey (Touch ID / Face ID), Google SSO, or hardware security key. Features value pillars: 100% allocated & segregated custody, 120s price lock guarantee, and armored delivery.

KEY ARCHITECTURAL HIGHLIGHTS

- Single primary gold action (Continue with Email)
- One-tap WebAuthn passkey verification
- Discreet staff portal link for operational security

SEAL VERIFICATION

On arrival, match the printed seal barcode against TEB-88410-C before signing. A broken or mismatched seal → refuse delivery and open a claim; Lloyd's coverage rides until your signature.

Report a seal issue

FUNCTIONAL OVERVIEW

Real-time armored logistics tracker displaying tamper-evident seal barcodes, custody transfer checkpoints, and direct signature requirements.

KEY ARCHITECTURAL HIGHLIGHTS

- ◆ Tamper-evident bag (TEB) seal barcode matching
- ◆ Brink’s armored carrier route checkpoints
- ◆ Direct photo ID signature requirement

Physical precious metals are IRS collectibles — long-term gains cap at 28%. This is bookkeeping, not tax advice.

FUNCTIONAL OVERVIEW

Automated realized gains/loss ledger, 1099-B Schedule D exportable CSV reports, and FinCEN Form 8300 high-value transaction compliance monitoring.

KEY ARCHITECTURAL HIGHLIGHTS

- Yearly realized P/L calculations
- One-click Schedule D CSV report download
- Automated Form 8300 threshold monitoring (\$10,000+)

Customer liquidations at locked bid rates. Approval checks KYC clearance; disbursement executes the payout and reclaims physical stock to treasury.

REQUEST	CUSTOMER	POSITION	LOCKED BID	PAYOUT	KYC	STATUS
RM-SB-0088 7d ago	Adrian Reyes	American Gold Eagle · 1 oz ×1 RM-AU-EGL-3299	\$2,531.00 spread 0.5%	USDC 0x8ff2...41ce	CLEARED	DISBURSED
RM-SB-0091 3h ago	Mei Lin Tan	Gold Britannia · 1 oz ×1 RM-AU-BRT-1150	\$2,519.00 spread 0.5%	WIRE	CLEARED	REQUESTED ApproveReject

FUNCTIONAL OVERVIEW

Treasury console reviewing customer sell-back requests, verifying KYC clearance, and executing 1-click USDC or Fedwire disbursements.

KEY ARCHITECTURAL HIGHLIGHTS

- 1-click crypto and wire disbursement with confirmation modal
- Instant treasury stock reclamation upon payout
- KYC clearance status verification check

Can I get a tighter delivery window for the proof Eagle in transit?
I need to be home to sign.

Dev Patel · staff

16h ago
Checking with Brinks — current ETA is tomorrow 10:00–14:00. I'll confirm the 2-hour window as soon as the courier commits.

Reply as staff – syncs to the customer thread live...

Send

FUNCTIONAL OVERVIEW

Staff ticket queue for customer inquiries, assay re-verifications, and delivery window coordination with SLA response counters.

KEY ARCHITECTURAL HIGHLIGHTS

- ◆ Ticket triage by priority (Urgent, High, Medium, Low)
- ◆ Direct thread replies synced to customer view
- ◆ Order linking for rapid dispute resolution

FUNCTIONAL OVERVIEW

Cryptographic, append-only operational audit log recording every system mutation with actor identity, timestamp, IP address, and before/after diffs.

KEY ARCHITECTURAL HIGHLIGHTS

- 100% auditable log of all money and inventory movements
- Actor identity and IP geolocation recording
- State machine diff logging (before vs. after)
